

Over The Top Car Detailing: Case Study #72

The Challenge:

Before working with Net Visibility Group, Over the Top was frustrated that their website was not ranking in search engines for keyword phrases critical to their business.

- They had tried a series of different marketing companies and strategies resulting in multiple websites owned by different companies with largely incorrect listing information across the internet.
- Because of the decreasing effectiveness of their Yellow Pages, TV, Newspaper and Direct Mail campaigns they were finding it necessary to constantly increase their marketing expenditure to get the same results.
- Local competitors had long established websites with large internet marketing budgets.

The Plan:

- Find and procure a keyword relevant geo specific web domain that the client would own.
- Design and build a website that was SEO friendly, including URL structure, meta-data, sitemaps and keyword density.
- Undertake keyword research and analysis to identify the top keyword in relation to their industry and geographic location.
- Develop and implement an aggressive link building strategy based on keywords targeted to reach the client's ideal customer.
- Utilize our proprietary local listing service NVG LocalList™ to clean up their multiple incorrect directory listings.
- Claim and optimize Local business listings in Google, Yahoo and Bing.
- Frequent and proactive optimization monitoring.

The Results:

The project resulted in a marked improvement in both natural organic search results and increased referral traffic.

- Listing information has improved by over 92% in major directories, internet yellow pages, GPS system and 411 information systems.
- Decreased overall advertising budget by 87%.
- Achieved # 1 position in Google natural organic search results for 70 different keyword phrases and over 170 for Google, Bing and Yahoo combined.
- Achieved Top 10 position (1st page) for 288 keywords in Google, Bing and Yahoo combined.
- 750% (+) ROI (*measured by new revenue/internet marketing budget*)
- Trending to receive over 2000 Visitors to website annually (and increasing) 81% have been new visitors to the website.

Over The Top Car Detailing: Case Study #72

Increased Organic Search Visibility

A few months after implementation of the SEO strategy, Over the Top Detailing began to see steady improvement in overall search engine rankings across a wide range of targeted keyword phrases. The table below shows how they appeared in Google's search result for the associated keyword phrases after 9 months

Ranked 1st		70 rankings found for 55 keywords in 3 search engines
In Top 3		162 rankings found for 75 keywords in 3 search engines
In Top 10		288 rankings found for 108 keywords in 3 search engines
